

Daniela Taniguchi

Drupal/Frontend Developer

Houston, Texas, United States

email: daniela.taniguchi@outlook.com

phone: +1 832-537-4255

SUMMARY

I'm a frontend Drupal developer with 5 years of experience and 2 certifications: "Acquia Certified Front End Specialist - Drupal 10" and "Acquia Certified Developer - Drupal 10". Throughout those years, I've been working with Drupal 8 to Drupal 10 in custom theme development and maintenance, single directory components, layout builder, website performance improvements, accessibility requirements, hooks preprocess and maintenance of custom modules. I also have experience with React JS development, interacting with Drupal or other backend structures via API. For React I've worked with local component state, Redux and Context. My most recent experience involves Lando for local development, Acquia/Pantheon/Platform.sh as hosts and git to version control.

SKILLS

- Drupal
- Javascript
- Next
- React.js
- PHP
- MySQL
- HTML
- Bootstrap
- CSS
- SCSS
- JQuery

EXPERIENCES

Drupal Developer (Aug/2022 - Apr/2025) at Elevated Third

Projects: Costar, Comcast, Usertesting, DMAR, Numerix, International Paper, Finastra, Metrc, Biowound

- Development of Drupal 9 and Drupal 10 websites
